**BILDNER SEMINAR**

# BRAZIL'S AMAZON

## BIOFUELS, BEEF, BIODIVERSITY

**David Cleary**

*Director*

*Conservation Strategies, Latin America*

*The Nature Conservancy*

Brazil is the most biodiverse country in the world but has also emerged as an agricultural superpower over the last decade. This has made dealing with the environmental impacts of agricultural expansion in Brazil an urgent issue for those concerned with climate change, but it has complex economic, social and political ramifications – and enormous potential to disrupt relationships between Brazil, the US, China and the EU.

*\*This event is co-sponsored by the Office of the Vice President of Research and Sponsored Programs and the Doctoral Program in Earth and Environmental Sciences\**

Location:

**The Science Center**  
Room 4102  
The Graduate Center  
365 Fifth Avenue

**Wednesday**  
**September 16**  
**4:00 PM**
